

DRY WORKING SUITS*serious skin***TYPHOON****Water Operations Safety Suit p.n.120109**

The Typhoon W.O.S.S. (Water Operations Safety Suit) is a suit which has many practical applications in commercial and military marine environments. It is made of an innovative 350gsm trilaminate Clo-TEX material, which is hard wearing, yet highly flexible and very comfortable to wear. Both the knee and the seat areas are reinforced with a hard wearing PU layer. A waterproof breathable back panel makes the suit ideally suited for prolonged wear, as sweat is allowed to escape, without sacrificing the overall wear properties of the suit. The W.O.S.S. is highly appreciated by a variety of users, such as waterways maintenance personnel, offshore stand-by and rescue personnel, fire brigades, river police units and many others. The Typhoon Patrolman's Suit (Product # 12300) is similar to the W.O.S.S., with exception of the yellow front panel, which is replaced by a dark navy panel, adapting the suit to the needs of police and naval units. The W.O.S.S./ Patrolman's Suit is available in standard sizes ranging from XS to XXXL and in "Made To Measure" specifications.

Also available in heavy duty Nylon Trilaminate material, p.n. 1209

Colours: Navy / Yellow

Sizes: XS, S, M, L, XL, XXL, XXXL

Approvals: CE

DRY WORKING SUITS*serious skin***TYPHOON****Rescue And Response Suit p.n. 120139**

The RARS, short for Rescue And Response Suit, features the latest in technology in self donning dry suits for marine rescue personnel. The top half of the suit is made of a comfortable breathable fabric, providing maximum freedom of motion and high visibility yellow colour. The bottom half of the suit is made from trilaminate Clotex. The suit features an easy to don bib entry zipper, Glide skin cuff and neck seals and internal braces. There is a box pocket on the right thigh and a radio pocket on the upper left arm. The knee area's are reinforced with nylon acrylic pads with neoprene inserts. The RARS is fitted with lightweight neoprene lined boots for warmth, flexibility and a sure grip on RIB floors and wet surfaces. The suit can be optionally fitted with a SOLAS/ MED approved inflatable lifejacket. Available in standard sizes from XS to XXXL and in "Made To Measure" specifications.

Colours: Yellow / Black**Sizes:** XS, S, M, L, XL, XXL, XXXL.**Approvals:** CE

DRY WORKING SUITS**MUSTANG SURVIVAL****Ice Commander IC9001**

- Hood offers a water-tight fit
- Face seal gives top protection from water and wind exposure
- 2.5 mm neoprene on knees provides reinforcement and padding to knee and lower leg
- Seat and elbows reinforced with yellow shell fabric
- Full length body zipper gives a water-tight seal
- Welded nylon outer shell provides waterproofness and durability
- High performance urethane coated nylon exterior makes repairs and cleaning easier
- Durable rubber soles provide traction on wet surfaces
- Integral self-adjusting safety harness
- Sleeve pockets customized to attach and stow ice awls. Pockets easily secured with Velcro. (Ice awls not included).
- Compact storage case - storage volume has been reduced by about 17% compared to a conventional neoprene suit
- Detachable inner buoyancy liner constructed of closed-cell AirSoft foam for maximum flotation and thermal insulation. Liner can be unsnapped and removed for in-the-field repairs and cleaning.
- 5 fingered gloves attached to each sleeve. Palms provide abrasion resistance and better grip.
- Body Mass: 110-330 lbs (50-150 kg), Height: 4'11"-6'7" (1.5-2m)

Colours: Yellow

Sizes: Universal Adult
