

SOLAS LIFEJACKETS**STEARNS INC.****I110 Ocean Mate I Adult**
I111 Ocean Mate I Child

The top of the solid foam SOLAS life jackets. Excellent fabrics and specifications. This life jacket does have an U.S. Coast Guard approval as well, together with a MED steering wheel approval. The adult model does have a minimum of 156 N buoyancy.

Equipped with a whistle, SOLAS-grade reflective panels and a light pocket. Stackable for easy storage.

Sizes: I110 Adult, over 34 kg, 156N buoyancy minimum, stack sizes: 66 x 31 x 11 cm
I111 Child, max. 41 kg, 80 N buoyancy minimum, stack sizes: 52 x 26 x 9 cm

Approval: MED SOLAS 74/83, USCG type I

SOLAS LIFEJACKETS**Veleria San Giorgio MK 6 SOLAS lifejacket**

Article nr: 01015/W1 for adult

Article nr: 01016/W1 for child

- Easy stackable
- 150 N buoyancy

Approval: MED SOLAS 74/83

SOLAS LIFEJACKETS**INTERNATIONAL SAFETY PRODUCTS****Challenger Offshore 150**

The Offshore 150 N inflatable lifejacket has been designed as a dual purpose emergency abandonment or constant wear lifejacket. The split front design allows the wearer unrestricted movement. Twin automatic independent chambers offer maximum safety. It is equipped with a whistle, a light and reflective panels. Buoyancy is more than 150 N. It does meet the SOLAS 1983 requirements.

COLOR: cover (PVC) orange, buoyancy chambers yellow

SIZES: Adult Universal

APPROVALS: MED SOLAS74/83

SOLAS LIFEJACKETS
INTERNATIONAL SAFETY PRODUCTS**Challenger Interlock 275**

The Interlock 275 has been specifically designed for use when heavy duty clothing or protective gear is being worn. It is a split-front SOLAS inflatable lifejacket with two independent chambers. It is equipped with two automatic firing mechanisms, reflective panels, whistle and a light. Buoyancy 300 Newton. Complies with SOLAS 1983 regulations, European CE 275 (EN399).

COLOR: cover red, buoyancy chamber yellow

SIZES: Adult Universal

APPROVALS: MED SOLAS 74/83

SOLAS LIFEJACKETS**INTERNATIONAL SAFETY PRODUCTS****Challenger Hydrosafe**

- Designed to fit both adults and children
- Can be stowed underseat within easy reach in an emergency
- Small uninflated volume allows for rapid access in an emergency
- Can be donned in seconds following simple pictorial instructions
- Allows unrestricted movement and full forward and downward vision
- Has less weight and gives an 85% space saving in comparison with inherently buoyant lifejackets
- Air tight pack reduces corrosion and service costs
- Twin chamber security and high visibility neon yellow fabric
- In daily use worldwide
- Fully complies with the latest amendments to SOLAS Chapter III and approved by U.K.M.C.A and M.E.D (Ships Wheel) plus EN399

Specification

- Packed size 38x12x10cms
- Weight 0.95kg
- Double chamber fully automatic gas inflation system
- Retro-reflective tape
- Whistle
- Grab loop
- Locational light
